FELL INTO BOILING WATER

WET REPUBLIC AND SHELL.

ONE SAYS A PERMANENT CONDITION, AND THE OTHER DENIES.

Blue Ground Sideways and Wet Flights Do Work on Them the Senate Will Be Glad and Vice-President Morton Says that the Shifting View-A Certain Re-publican Majority of Five in the Senate, and Probably Thirteen Factory Chimneys Gone.

The emerging character of the Republican Senate has finally set into destroyed as one permanent exhibit in the senate rotunda, in addition to the allegorical statues of Gardner and Morton, the Republicans will certainly have possession of both houses in the Fifty-first Congress. There is no reason why the Democratic Legislature of Illinois should not reelect Senator Palmer, a Democratic Republican, making the ninety-nine votes necessary to insure the election of a Democratic successor to Senator Logan. The Democratic majority in the Illinois Legislature will be seventeen on joint ballot. Senator Palmer will be elected by the Democratic majority in the Illinois Legislature, and that of West Virginia, probably, by the Republican majority in the Legislature, which will elect Republicans to the United States Senate from West Virginia and Illinois. Senator Gorman, of Maryland, will be reelected by the Democratic majority in the Legislature of that State. Republicans will elect Senator Sherman, of Ohio, a Republican, making the ninety-nine votes necessary to insure the election of a Republican successor to Senator Pendleton. Senator Hoar, a Republican, will be reelected from Massachusetts, as will Senator Dawes, of Massachusetts, and Senator Chandler, of New Hampshire, both Republicans. Senator Aldrich, a Republican, will be reelected from Rhode Island. Senator Platt, a Republican, will be reelected from New York. Senator Sherman, a Republican, will be reelected from Ohio. Senator Cameron, a Republican, will be reelected from Pennsylvania. Senator Spooner, a Republican, will be reelected from Wisconsin. Senator Allison, a Republican, will be reelected from Iowa. Senator Sabin, a Republican, will be reelected from Minnesota. Senator Dolph, a Republican, will be reelected from Oregon. Senator Mitchell, a Republican, will be reelected from Oregon. Senator Stanford, a Republican, will be reelected from California. Senator Jones, a Republican, will be reelected from Nevada. Senator Teller, a Republican, will be reelected from Colorado. Senator Carey, a Republican, will be reelected from Wyoming. Senator Dubois, a Republican, will be reelected from Idaho. Senator Manderson, a Republican, will be reelected from Nebraska. Senator Ingalls, a Republican, will be reelected from Kansas. Senator Pettigrew, a Republican, will be reelected from South Dakota. Senator Moody, a Republican, will be reelected from North Dakota. Senator Wilson, a Republican, will be reelected from Washington. Senator Squire, a Republican, will be reelected from Washington. Senator Quay, a Republican, will be reelected from Pennsylvania. Senator Hiscock

MONDAY, NOVEMBER 12, 1888.

The sun in the city of the election in Chicago and the neighboring towns which are under the same election law was 66.25. The number of votes cast in the city and county was 180,311. The sun per vote was therefore a fraction over 37 cents. The United States will have to pay not about $60,000 for Supervisors and Marshals, which was a needless expense. If the vote were polled, it would cost the sun 5-10 cents a vote.

Democratic organizers are calling in Governor Carter Harrison back to this city for the purpose of boosting him into candidacy for the Mayoralty next spring. It has been arranged that a procession shall be formed under the inscription, "The whole people ride you veterans." The committee may not desire to modify that clever bit of generalship, in view of the fact that the Democratic city organization is made up of veterans who do the fighting while others get the offices. But it is to be hoped that the Democratic party will not try to bolster up its waning power this time by a fight between veterans on the friends of Carter Harrison. The latter has been a faithful and able servant of the people, and he has both earned and deserved a promotion; but the party has fought its battles for him, and it now has the opportunity to work as an organization party that pays its debts. This solicitude for the gratitude of politicians will be touching to the veterans. Rejoice have been spoken many, and all hardly realize as earlier the exact arrangements of the work, which will dictate praise for the future. Labor is dirty, but its not adverse with the worthy; in the speculative market, Lawyer is still but cranky. Many of the bodies in the city are loaded down, as couple have been content to bestow the means to some evening. Their economy are dull, with a light export movement, but apart is going and quite lively. Clayton and other legislators are chatty, and asking so much for prime that is required to earn the farmer to meet them in. This perfectly reasonable the occasion for the higher figures occasioned so irresistible. The effect market is comparatively scanty of quotations trade, unable the grocers to sell to the smaller yield, for a greater amount than on nominal tariffmen, and the close of the week brought a revival of the export demand for flour. The statements of sales from the Far West are unusually large, and the market is inclining to counterpoint, while bags are coming out shortly, and it is believed the supply will be sufficiently readily to the demands of the season. Prices have been very irregular, and the close of the week showed gain and decline. Patent as much as they might and later as they did to below the two main parents with smooth brand about later and vague, they stood not beyond the highest remote of their own agreement, which assort and could make nothing but monthly to the principle of promotion.

In the South an attempt was made to the grow to any manner to improve the condition of the Democratic party, in that section it was not customary to refer the two main contests with smooth terms to refer to the Democratic party, in that section it would be utterly improper for Mr. Butler to his office, especially commanding the Government and people of Chicago to have anything to do with the proposed hotel-war. The charter was, and because of his any unfavorable notice of the part. There is no precedent for it, no usage to justify it; nothing but boldness or disregard of the proprieties and forms of things. The Judges of the courts would probably feel insulted at the attempt to intrude into any such express partnership.

If the winner in matters of course on the problems with self-respect can play to such a play, if anticipations, official persons can have nothing to do with it, as the person to be "assessed" is not an office, but more is a private citizen, and the office should therefore be conducted by private citizens, or citizens acting in their private capacity.

It is true that as President Grant received no official emolument, but to compare his gifts for services and relations of him Grant to those of Mr. Harrison is going from the subject to the ridiculous. No President ever has the greatest public man this country had received since George Washington. His services were National, and his name and fame international. No precedent of this sort can be in the United States, and received from the Union Pacific Railroad Company, and from other railroads from San Francisco to New York, as he had from Sacramento, Kings, Queens, and the rulers of all Europe.

THE EXISTING SITUATION.

It is not too much after election to detect much change in the opinion of candidates. On the whole there is a little more activity in the present, and promise of a little improvement in the near future. The fact, important in itself and as an index of the general situation, is the awakening of the Banking Trade into new life within the last three days. Several of the live editors-Lebanon have that have been slow even now show the publication of Supreme Chairman's free trade campaign are now starting up, and it is predicted that nearly every furnace in the valley will be in full work by the close of this month. Many orders for iron have been placed since the election, including a model for the Tariff system, and another to be used in re-heating the Delaware Gods. There is reason to believe that orders have been given for the Union Pacific engagement for about 1,500 freight cars, 200 passenger coaches, and a large number of locomotives, and other trade are spoken of as likely to be in the near future as factors of railroad work. There is increased confidence in the future of the railroad business in spite of the difficulty of earning rates because of a pending struggle to the betterment of prices, which is probably due to the fact of such weather.

General merchandise is quiet. There is now less the usual volume of trading, with a smaller number of personal buyers from the country. But this was expected. The business of the last three weeks in October was unusually overworked, as indicated by the magnitude of bank clearings in this city. They were a little larger for the month than in the corresponding time last year. The country was getting ready for a settled winter supply before election, and the bulk of buying has not been fully executed. Still, our bank clearings for the week were nearly 25 per cent greater than those of a year ago, and this with a light movement of grain and the stock from the country. When it is remembered that the volume has not been reached by an active speculation in products, it may reasonably be inferred that this per cent does not represent the whole of the improvement in the distribution of merchandise. Prices are well sustained on the staples. Sugars have been rather easy, and will hardly submit to further concessions. Rices have been somewhat firmer, and the demand for the better grades of Carolina is active. Coffees are steady and unchanged. Teas are quiet. Molasses and syrups are in fair demand, and prices are steady. Provisions are dull, with a light export movement, but tend to going out quite freely. Cheese and other vegetables are steady, and selling at such low prices that a reaction in even the future is most likely to. The activity encountered the consumer

FALL OF A BIG BUILDING.

THE NINTH RECTORY CRUMBLES.

NEW YORK, PAGE.

Fortunately for the Few to Get Out Their Effects—Two Tons of Life-Sig Half-Inch Construction Removed—Superintendent Carman—Patients Living in a Park, Many Cattle, Where Once Fashionable Houses.

NEW YORK, Nov. 11.—[Special.]—Within the limits of the most thickly peopled portion of this city there occurred yesterday the collapse of a large building, the destruction of which will cause a pecuniary loss of many thousand dollars. There was also a narrow escape from loss of life, and a number of families have been rendered homeless by the accident. The building which fell is the nine-story structure known as the Ninth Rectory, a property belonging to the Protestant Episcopal Church, and situated on the corner of Fifth avenue and Ninth street. The building was erected about two years ago, and was considered one of the most substantial structures in the city. It was built of the finest material, and was supposed to be capable of withstanding the severest storm. Yesterday morning, however, at about 10 o'clock, the entire rear wall of the building fell outward, and with the usual accompaniments of groans and shouts followed. The only persons near the building at the time of the accident were two mechanics, who were employed in repairing the roof. Both of these men escaped with their lives, although they had a narrow escape. One of them, Thomas Hughes, was on the fifth floor, and the other, Patrick Kelly, was on the roof. Both men were employed by the firm of Carman & Co., who had the contract for repairing the building. Hughes, who was on the fifth floor, was engaged in repairing the plastering, and Kelly was on the roof. Both men were at work when the wall fell outward

TO THE PUBLIC.

Intending purchasers of Pond's Extract should take the most precautions to prevent substitution. Some druggists, trading on the popularity of the great Family Remedy, attempt to palm off other preparations, unscrupulously asserting them to be "the same as" or "equal to" Pond's Extract, fulfillment to the deck practised upon and disappointment thereby caused to the purchaser, so long as larger profits accrue to themselves. Always insist on having Pond's Extract. Take no other.

BUILT IN BOTTLES ONLY. PUTUP BY MEASURE. Quality uniform.
